ZIBO DECENT MACHINERY CO., LTD

WWW.SCY-FAN.COM

ABOUT US

Zibo Decent Machinery Co., Ltd is engaged in ventilation and dust removal, as well as ventilation and climate control equipment, providing customers with comprehensive engineering solutions and support at all stages of project implementation. We provide mine ventilation and suction solutions to customers in at least 150 countries.

ABOUT US

Zibo Decent Machinery Co., Ltd has many certificates and diplomas of achievement and contribution to the development of the mine ventilation industry and the safe operation of coal and polymetallic mines in China.

Zibo Decent Machinery Co., Ltd has 99 patents, including: 18 invention patents, 73 structural component patents and 8 software product patents.

OUR SERVICES

At the same time, we attach great importance to after-sales service. We have opened after-sales service centers in Canada, Singapore, Thailand, Vietnam, Indonesia, Ghana, Panama, Peru, Serbia and other countries to provide faster and more convenient service to our Customers.

1ST STAGE. SELECTION OF EQUIPMENT

We help our clients make the right selection of equipment and related components according to the required characteristics.

2ND STAGE. DESIGN WORK

We provide all the necessary information about our equipment to complete design work in a short time.

3RD STAGE. SUPERVISED INSTALLATION

Our specialists provide full technical support during installation of equipment directly on the construction site.

4TH STAGE. WARRANTY PERIOD

We provide fast and professional warranty and post-warranty service. We keep a warehouse of consumable spare parts designed specifically for a specific customer, which reduces the waiting time for spare parts.

ZIBO DECENT MACHINERY CO., LTD

150+

Export to more than 150 countries around the world

500+

Completed projects around the world

20+

After-sales service centers

30+

Over 30 years of industrial manufacturing experience

OUR ACHIEVEMENTS

Equipment is exported to more than 150 countries, and there are more than 20 service centers around the world. Over 30 years of manufacturing experience in the industry to meet all customer requirements. ODM and OEM support. 24/7 online customer support including sales team, technicians, supervisors and an emergency hotline so customers can get the advice they need anytime. From material selection to finished products, Decent Machinery has a complete quality control system, which can ensure that the equipment is of high quality, practical and has passed strict tests.

OUR PRODUCTS FOR MINES AND INDUSTRIAL PLANTS

Zibo Decent Machinery offers a wide range of two-stage axial fans for main ventilation of the FCZ and FBCDZ series, axial fans for local ventilation of the GAL and KCS-D series.

Decent Machinery develops high-performance ventilation systems to ensure smooth mine operation. Whether it is main mine ventilation or local ventilation, we can, with our software and our experience, support the operator in his work and offer a solution that is economical to operate while ensuring safety. from miners.

Zibo Decent Machinery's corrosion-resistant fans are versatile and suitable for pharmaceutical, chemical, precision electronics and metalworking industries. Zibo Decent Machinery fans excel in harsh environments with acidic, alkaline and chemical gases and provide superior corrosion resistance and optimal performance to meet various needs.

Decent Machinery offers a wide range of dust collection equipment suitable for industries such as metallurgy, building materials, chemical, energy, medical and food industries.

Our products include LFEF fiberglass dust collectors, FMPD air impact bag dust collectors, HMC single pulse dust collectors, self-contained dust collectors (HD series, UF series, BD series), various cyclone dust collectors. We provide custom filtration system design services to suit your specific needs.

OUR CLIMATE AND VENTILATION EQUIPMENT

AHU

Energy-saving air handling unit with heat recovery. It is possible to manufacture equipment of any complexity and type.

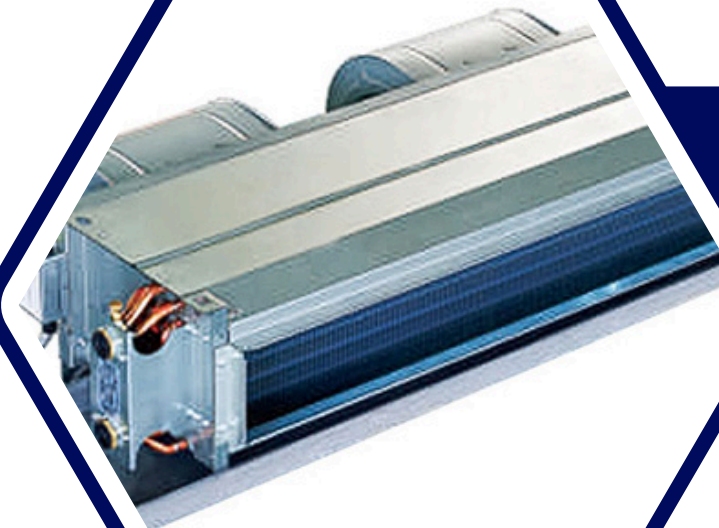

HEAT PUMPS AND CHILLERS

- High-quality Copeland/Daikin compressors.
- Highly efficient circulation pumps.
- The units are equipped with stainless steel (SS304) water tanks.
- Electrical and components from brands such as LS, Emerson, etc.

HIGH PRESSURE FCU

- Cooling capacity: 8 ~ 140 kW
- Heating capacity: 6~147kW
- Fan coil air consumption: 720~26000m³/h
- Available with fresh air supply

LOW PRESSURE FCU

- High efficiency and energy saving
- Air volume: 340-3400 m³/h
- Cooling and heating power: 180-18000 W
- Low noise level

OUR CLIMATE AND VENTILATION EQUIPMENT

WATER COOLED CHILLERS

- High-quality compressors from leading manufacturers.
- Refrigeration components ALCO/SPORLAN/DANFOSS.
- SIEMENS microcomputer for convenient control.
- Cooling capacity: 180-2780 kW

DX COIL AHU

- AHU complete with heat pump in one housing.
- Convenient and compact solution.
- Easy installation and operation
- Full computer control with a high degree of automation

VRF SYSTEMS

- High-quality components from well-known brands.
- Cooling power: 25.5~360kw
- Thermal power: 27.4 ~ 400kW

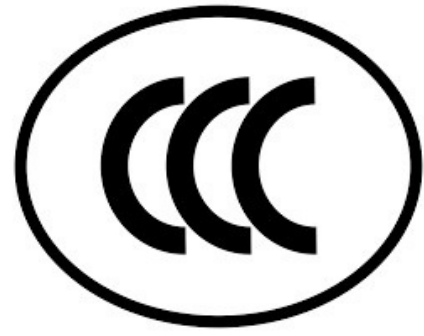

THERMOSTATS

- Precise temperature control
- Easy to use interface
- Smart scheduling function
- Durable and reliable quality
